

HackCelestial 2.0 Event Flow

Pre-Event Submission

1. No Changes to Problem Statement

Teams are **not allowed** to change the Problem Statement they were assigned; the solution must follow the original problem exactly.

- **Example:** If the problem involves designing a solution for a **food delivery app** with specific features like **order tracking** and **payment integration**, you **cannot** change the scope of the app to something unrelated, like a **fitness tracking app**.

2. PowerPoint (PPT) Submission

Teams are allowed to **update** their submitted PowerPoint (PPT) presentation showcasing the solution to the Problem Statement. However, the PPT must **strictly follow** the provided **Solution PPT Template**. [Link](#)

- **Presentation Requirements:**
 - The PPT should **not exceed 6 slides**.
 - It must be in the **exact format** as shown in the sample file.
 - **Any deviations** from the template will result in penalties.

3. Prototype Video and Updated PPT Submission

All teams must submit their **prototype video** and **updated solution PPT** by **September 10, 2025**, showcasing the functionality and features implemented in their solution.

Prototype Video Requirements:

The video should highlight the **core features** and **user interactions** of the software prototype, demonstrating how it addresses the Problem Statement.

- **Video should include:**
 1. **Introduction (30 seconds):** Briefly introduce the problem being solved and the overall solution approach.
 2. **Demonstration of Key Features:** Show how the software works, focusing on the core functionalities and features that were implemented. This may include user login, dashboard views, key tools, etc.
 3. **User Interaction:** Display how a user would interact with the software, walking through major steps or tasks within the application.
 4. **Highlight of Innovative Aspects:** If applicable, emphasize any unique or innovative features that distinguish your solution.
 5. **Challenges Overcome:** Mention any major technical or design challenges that were overcome during development.
- **Video Quality:** The video should be **clear**, with sufficient visual quality to demonstrate the prototype's functionality. Ensure that **audio and visuals are synchronized** and the video is easy to follow.

Note: Late submissions will lead to penalties.

4. Mentor and Judge Evaluation

Mentors and judges will review your prototype video and implemented functionality **before** the final event. This evaluation will help prepare teams for the **final judging rounds**.

Final Hackathon Schedule

DAY 01

8:00 - 10:00 AM	:	Registration and Breakfast
10:00 AM	:	Orientation and Opening Ceremony
10:30 AM	:	HackCelestial 2.0 Begins
1:00 PM	:	Lunch
2:00 PM	:	Mentoring Round
7:00 PM	:	Networking & Jamming Session
8:00 PM	:	Dinner
10:00 PM	:	Minor Task Assignment

DAY 02

8:00 AM	:	Breakfast
10:00 AM	:	Coding Continues
1:00 PM	:	Lunch
2:00 PM to 4:30 PM	:	Judging Round
5:30 to 7:00 PM	:	The Top N performing teams will showcase their solutions in the Final Round of Judging
7:30 PM	:	Winner Announcement
8:00 PM	:	Checkout

Minor Task Assignment:

At 10:00 PM on Day 1, participants will be assigned a minor task aimed at enhancing their project. The task will involve adding a new functionality to the existing solution, giving teams a chance to implement new features. This assignment serves as a quick, yet impactful test of creativity and problem-solving skills.

The Top N performing teams will showcase their solutions in the Final Round of Judging:

In the final judging round, the top-performing teams will present their innovative solutions to the panel of judges. The winner, runner-up, and third runner-up will be announced from the top-performing teams in the final round of judging.

Rules & Guidelines

General Guidelines

1. The hackathon lasts 28 hours, from 10:30 AM on Day 1 to 2:00 PM on Day 2.
2. You must stay at the event location the whole time.
3. Participants are not permitted to leave their designated areas during nighttime.
4. Participants are not permitted to leave the campus grounds during the event.
5. Maintain professional and respectful behavior.
6. To ensure a fair and competitive environment, all participants must abide by the established rules.
7. Adherence to the rules is mandatory. Violations may result in disqualification, as determined by the organizers.

Code of Conduct

1. Ensure respectful treatment of all individuals at all times.
2. Any form of bullying, misconduct, or dishonesty will result in removal from the premises.
3. Maintain proper care of all provided equipment and facilities.
4. Intentional damage or misuse of resources will not be permitted.

Project Rules

1. Create an innovative solution during the hackathon.
2. Open-source tools and APIs may be utilized; however, proper attribution must be provided.

3. Your project should fit the theme of the hackathon.
4. Upload your project to GitHub or a similar platform before the deadline.
5. Project deployment will be considered a plus point.

Finishing Up and Judging

1. All projects must be submitted by 1:00 PM on Day 2. Late submissions will not be accepted.
2. You need to submit:
 - a. Your code (github link) and presentation
 - b. A brief description of your project
 - c. Link to the deployed application (if any or screenshots)
 - d. All judges' decisions will be impartial and final.
3. Submission link will be provided on Day 02
